Introduction

Introduction

The skills sector aims to improve the quality and demand-orientation in the current system of skills development, increase access to market-relevant skills training and strengthen STEM education in secondary schools.

It focuses on incentivizing a strong involvement of industry and the private sector in skills development, fostering on-the-job training, increasing tailored training offers for farmers, women, vulnerable populations and people with disabilities throughout Ogun state.

Supports by skills sector will address critical gaps in foundational skills including literacy, socio-emotional skills and technical and digital skills.

Focus Areas

5

**Establishing Model
Technical Colleges/Centres
of Excellence (CoE)**

**Developing Apprenticeship
Training in Ogun State**

**Improving and Expanding
STEM Teachers' Education**

**Driving the Reform of the
TVET System**

**Strengthening Demand-
driven Community-based
Skills Training**

REFORM PLAN

Objective: to overhaul the skills development eco-system in Ogun State

Specifically to

1. Improve the quality and demand-orientation in the current system of skills development

2. Increase access to literacy programs and market-relevant skills training in the state

3. Enhance the quality of science, technology, engineering and mathematics teaching in school.

Project Development Objectives

PROJECT DEVELOPMENT OBJECTIVES

Upgrading skills measured by number of beneficiaries of skills development programs that are hired or self-employed within 6 months after training (disaggregated by gender and youth)
